

Factory-Direct Supplier Contacts · No Middlemen

Your shortcut to the source

The China Sourcing Directory

Verified List of Chinese Suppliers

Your shortcut to **3,000+ trusted Chinese suppliers**. Skip the months of searching, the Alibaba guesswork, and the costly middlemen. This directory puts over 3,000 verified Chinese suppliers in your hands — real factories with direct contact details, so you can go straight to the source and start negotiating like an insider.

WHAT YOU GET

- **Over 3,000 verified supplier contacts** — factory-direct, with direct contact details to email or call the factory.
- **Organized by product category** — electronics & tech, apparel & fashion, furniture & home, toys & games, tools & hardware, baby & kids, kitchen & dining, automotive, and more — so you go straight to the category you need.
- **Factory details and websites included** — check a supplier out before you ever message them.
- **One-time payment, yours to keep** — no subscription, no per-order commission on what you buy through these contacts yourself.
- **Updated regularly** — so your supplier list never goes stale.
- **Delivered instantly** after purchase — start emailing or calling factories this week.

WHAT “VERIFIED” ACTUALLY MEANS

Most supplier lists are scraped data with dead emails. Every contact on this list went through a real person checking that it is an operating factory — license, export history, and a contact that answers. Factory-direct means no middlemen and no 20–40% markup layers between you and the factory. It is the same list we use for our own sourcing clients.

THE CHINA SOURCING DIRECTORY

\$99

Over 3,000 verified Chinese supplier contacts, organized by category, with factory details and websites. One-time payment, yours to keep, updated regularly.

one-time

TWO WAYS TO WORK WITH US — PICK YOUR LANE

DO IT YOURSELF — THE DIRECTORY	DONE FOR YOU — FULL SOURCING SERVICE
\$99 one-time. You get the contacts and reach out to factories yourself. You negotiate, you order, you keep every dollar of margin — no commission to us.	\$500 sourcing fee per product + 8% commission (\$300 minimum per order). We find and verify the factory, negotiate, buy on your behalf, inspect, and ship. See our Services, Terms & Price Sheet for the full terms.
Best if you want to source yourself and just need the contacts.	Best if you want a team on the ground in China handling it for you.

WHO THIS IS FOR

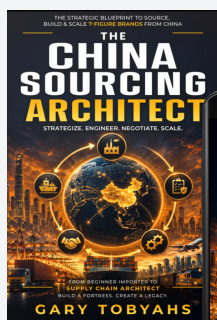

- **Amazon sellers, importers, and brand owners** who want factory-direct pricing without flying to China or paying an agent to do the searching.
- **Starters, too** — if you are just starting out, this is the cheapest way to start real factory conversations this week.

One honest boundary: this is a supplier list, not a sourcing service. The directory gives you the contacts — the outreach, negotiation, and ordering are yours. If you want us to verify a factory, negotiate, or inspect an order for you, that is the full sourcing service above, and we are glad to do it.

HOW TO BUY

1. Go to chinadirect1.gumroad.com/l/ratyix. **2.** Pay \$99 one time. **3.** Your directory is delivered instantly — start emailing or calling factories.
